

CONSTANCE SILK

This fabric is made in Germany, at a mill that has for decades specialized in producing only silk. They are experts in this, and their silks are beautiful, lustrous, and completely machine washable. There is a substantial difference in the quality of their spinning, weaving, and finishing compared to Asian and Indian fabrics.

450 Thread Count. Color: Natural with taupe

Weaving Tussah silk (which is wild silk and is a darker color) with cultivated silk (which is farmed, and a lighter color) produces a wonderful two tone effect. You can mix and match pieces from the other St.Geneve silk collections with this pattern.

This silk is completely machine washable and dryable. Please note that this silk will not be as shiny after the first laundering. Please see Care of Silk for more details.
