

St GENÈVE ESSENTIALS

A GUIDE TO CHOOSING LUXURY SHEETS

BACK TO BASICS

Our essential fabrics are the building blocks for the perfect luxury bed. These fundamental fabrics can be used alone for minimalist elegance or layered in with patterns, textures and jacquards as the foundation for your personal statement bed.

SATEEN

Sateen, also known as a satin weave, is characterized by its supple, smooth, and lustrous surface. It drapes softly over the sleeper, making it feel warmer than percale. St. Genève's cotton sateen fabrics are woven from the finest fibres available. Sateen's opulent feel makes it the most popular choice for luxury bed linens.

IMPERIAL HOTEL

COTTON SATEEN

This elegant sheet is made especially for the hospitality trade. We have supplied these bed linens to luxury hotels for many years, and they have proved to be soft, luxurious, and long lasting – even under the extra laundering hotels put them through.

REGENCY

COTTON SATEEN

How do you make one of the softest, most luxurious cottons we've ever seen? Start with 1,020 strands of long-staple cotton, twist them together into the finest threads, and then weave it into this unbelievably supple sateen. Available in white or cream, and finished with an elegant pleat detail.

FLORA

COTTON SATEEN

Woven from Giza 45 Egyptian cotton, Flora brings absolute luxury to your sleep experience. Giza 45 Egyptian cotton is noticeably softer, lighter and smoother than all other Egyptian cottons. It's grown in a tiny area east of the Nile delta, in perfect conditions. The cotton is so fine that it is carefully hand picked and hand sorted. It is so scarce that it is only 0.4% of Egypt's cotton production.

Shams

1.5" flange with hidden button band

A close-up photograph of a bed with white linens and a dark wooden headboard. The white sheets and pillows are slightly rumpled, creating soft folds and shadows. The dark wood of the headboard is visible at the top and right edges of the frame. The overall lighting is soft and even.

PERCALE

For that crisp, cool, 5-Star Hotel feel, choose percale. Percale is characterized by its matte finish and crisp hand. Its simple over-under weave gives percale its characteristic texture and prevents it from draping closely to the body. This makes it feel cool to the touch, and an excellent choice for hot sleepers.

HOTEL ROMA

COTTON PERCALE

Crisp percale bedding never goes out of style. Hotel Roma sheets, shams, pillowcases and duvet covers are a welcome addition to our line. Simply styled for a pared back casual look, Hotel Roma is both relaxed and chic.

LINEN

All St. Genève linens are made from flax grown in Belgium, France and Holland. Through the centuries linen has proven to be safe and environmentally friendly. This unique fibre has a natural lustre, stiffness, and breathability: this makes it an excellent choice for warm climates.

The most beautiful linen fabrics, like those selected by St. Genève are smooth, light and airy, with minimal slubs.

SPECIALTY

Looking for something else? From pure silk to unique blends that bring together the best qualities of multiple fibres, browse St. Genève's selection of specialty bed linens.

VERITAE

LINEN-LYOCELL SATEEN

Upgrade your bedroom with a beautiful white linen-lyocell blend that is anything but basic. Veritae has the crisp, casual hand you would expect from a linen, while the lyocell brings an almost silk-like softness. These fibres also bring an element of sustainability to your bed. Pillowcases and top sheet feature a hemstitch detail for graceful styling.
